

### **ESL Warmer: Finish the Quote**

In this activity you give students half of a quote about the topic they are going to study. In pairs or individually, students complete the quote and later discuss their quote with the class. After, show the students the original quote and discuss its meaning and the students' opinion.

For example, if you were going to talk about 'travel' with students, you could start class by giving students half a quote on travel such as 'Life is either daring adventure...' and students need to finish the quote. After, ask students to share their ideas and discuss them. Lastly, show them the original quote and ask them to discuss what they think it means.
