

## ESL Game: Sound Charades

**Sound Charades** is a super fun game for young learners but could be used with other levels. This version of charades is played the same as the original but in this version you can only make sounds.

**Activity time:** 10 minutes +

**Materials required:** Blank pieces of paper OR Vocabulary cards (see below for examples)

**Skills practiced:** Vocabulary practice

**Level:** Young learners (could be used with other levels)

### Method

1. First, you can get students to write up their own cards or use the printable cards.
3. A student selects a card with the name of an object on it.
4. That player then has to imitate the sound that objects make.
5. The other players have to guess the object that is being imitated.
6. The player who guess correctly goes next.
